Dear Hiring manager

As a recent graduate in information technology, I am writing to express my interest in the IT internship as briefed on your company's website. The opportunity presented is very interesting and I believe that my strong technical experience and education on software development and installation will make me a very competitive candidate for this position.

While in both my previous jobs as a student assistant afforded me well-rounded skill set, including the ability to work under pressure, problem solving and time management, I excel at

- Software development with various languages such as C#, JavaScript and Java.
- Interpersonal relationships
- Communicating within a team
- Problem solving

In addition to my experience as a student assistant, I have a solid educational foundation and the will power to succeed in the project I work. I therefore would appreciate the opportunity to grow as a person and enhance my current skill set, and in turn, contribute to your ongoing growth and continued success.

Thank you for your consideration.

Kind Regards,

Makwela Masilo Frans

BSc Hons IT Graduate

A self-motivated information technology Honors student, looking for my first deployment in the industry. I am eager to translate the great knowledge gained in varsity into real world applications.
